**Subject:** App review

Sheree,

Thank you for presenting your app this afternoon.

As you know I am a bit of a content perfectionist:

- dislike Times New Roman with a passion which is used in the footer
- form field tags in some instances are not sitting above the field but slightly on it
- system alerts are a bit small and the position is outside line of sight – I missed a few as a result, not a deal breaker
- category changing would be highly desired, not a deal breaker
- security considerations well thought out

Cheers,  
Shelley
